An Agency/A Team

Full-Stack Contract Web Developer or Contract PHP Laravel Developer

We're looking for a team experienced EU-based remote web developer to join our small but exciting team for a 3 or 4 month full-time contract from January 2019 to March 2019.

The ideal team will be self-sufficient and able to deliver full-stack front-to-back-end products or just PHP-Laravel-Developer and features with a high degree of independence and attention to detail. Your Team deliver SOLID and maintainable code. The ideal team has experience in all aspects of implementing a complete and functional back-end solution and can implement or at least maintain a finished design concept in front-end.

MINIMUM SKILLS & REQUIREMENTS

- | 2 – 3 years of Laravel experience including Laravel 5+
- | Very familiar with developing with Git
- | MySQL experience
- | An appreciation for instituting SOLID practices
- | Working social skills
- | Good written and spoken English knowledge

BONUS SKILLS

- | Comfortable coding with a CSS framework (e.g. Bootstrap, React, Angular) to match a design
- | Javascript experience including VueJS or NodeJS or jQuery
- | Experience with HTML, CSS, and JavaScript
- | Good written and spoken German knowledge

LOCATION

- | Remote – European only

This is a contract only position. To apply, email your resume and links to example sites that you've built to **bewerbung@ilgenfritz.biz**. A cover letter is not necessary but please include an introduction about yourself and your experience along with desired hourly rates. Inquiries without this information will be ignored. **EU-based contractors only.**
